DETAILED ACTION

Response to Amendment/Arguments

1. This Office Action is in response to the Response/Amendment filed on March 27th, 2008. Claims 1, 3 and 13-14 are now canceled. Claims 2, 4-12 and 15-21 are now pending in the application.

Drawings

2. The drawings were received on March 27, 2008. These drawings are acceptable.

Response to Arguments

3. The Response/Amendment filed on March 27, 2008 has been fully considered and subsequently found persuasive. The rejection of claims 1, 3, 6-8, 12-14 and 20 under 35 U.S.C. 103(a) has been withdrawn.

Allowable Subject Matter

4. Claims 2, 4-12 and 15-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed invention of base claims 2, 6, 9, 15, 20, 21 and further limit with novel and unobvious limitations as following:

"a priority decision section for deciding a priority of the external interface selected, wherein the transmission section generates second information added the first information with the priority and notifies the second information" structurally and functionally interconnected with other limitations in a manner as recited in claims 2, 4-5 and 12.

"wherein the interface decision section decides the at least one of the external interfaces based on the significance and takes a same parameter as the parameter of service type as a parameter representative of a characteristic of the at least one of the external interfaces, the parameters of the external interfaces each having further information recording superiority, the external interface being determined on a basis of the significance and the superiority" structurally and functionally interconnected with other limitations in a manner as recited in claims 9 and 10-11.

"wherein the connection information has a plurality of external interfaces, the connection decision section selecting one external interface associated with one of the plurality of external interface types, is added with a priority on each of the external interface types, and the connection decision section selects one of the plurality of the external interface according to the priority" structurally and functionally interconnected with other limitations in a manner as recited in claims 15-19 and 21.

"wherein the service-type recording section records a plurality of significances of a plurality of parameters representative of a plurality of characteristics of the service type and the interface decision section decides the at least one of the external interfaces by weighting using the plurality of significances" structurally and functionally interconnected with other limitations in a manner as recited in claims 6-8 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
